PCi
PREVENTIVE CRISIS INTERVENTION

It's your turnaround with PCI

Preventive Crisis Intervention (PCI) is a turnaround management firm dedicated to assisting start-ups to mid-size companies increase their profitability. Through PCI's experienced executive management team, we identify and solve problems before they escalate in areas such as financial, personnel, operations, sales and marketing. PCI promotes growth within a company by identifying key personnel, benchmarking key performance indicators and providing management training.

Clients receive a custom management system that leads to increased productivity; better communication; continuous operational improvement; more effective and valuable employees; confidence in compliance status; and increased trust and acceptance of new systems. Our broad business knowledge is the first aide for a healthier business.

■ PCI'S Total Business Solutions

Advisory Board PCI works with the existing management team to determine if the team's goals are consistent with corporate objectives.

Interim Management PCI provides short and long term management as needed.

Change Management / Restructuring An annual operational benchmark, used to identify areas for continuous improvement, examines such areas as product or service quality, delivery, productivity, cost, inventory, out-source performance, and employee satisfaction.
